

# ServiceCore

Software Solutions, Route Optimizations, and Inventory Management for Septic Companies

## No Stress, No Hassle

### GET DEPENDABLE SOFTWARE THAT YOU CAN TRUST

How many jobs did you lose this month because you don't have a reminder process to alert previous customers it's time for a service call? How much did that cost you?

ServiceCore is an all-in-one software solution that will ensure you never miss jobs, waste money, or lose valuable customers again. Plus it's an easy to use system that helps you manage your accounts directly from any desktop computer, laptop, tablet, or smartphone.

## Who Is ServiceCore?

*Hi, my name is Cameron. I'm part of the software development team at ServiceCore. Our software streamlines every aspect of your business and we're constantly coming out with new features. From scheduling jobs and invoicing customers to recording jobsite notes in the field, we've got you covered with the latest and greatest technology.*

## About Us

At ServiceCore, we understand that you're in the wastewater industry to make a good living and make life better for yourself and your family. Our software is designed to help you run your business more efficiently and profitably, and to help you spend more of your time enjoying the good life.

Schedule a demo today to see how we can help you.

# Features and Benefits

## Inventory Management

- Go paperless and manage your inventory online
- Use the inventory map to easily see the location of all rental units
- Keep track of your inventory with an availability calendar

## Customer Management

- Set calendar notifications so you never forget an upcoming job
- Schedule recurring cleaning or pumping service with "Repeat Jobs"
- Assign customers multiple service locations so you can better manage your bigger clients

## Reports

- Generate business reports with just a single click of a button
- Track your volumes, jobs, revenue or driver efficiency
- Simplify regulatory reporting for local and state agencies

## Scheduling and Route Optimization

- Create and organize jobs to dispatch technicians efficiently
- Optimize scheduled jobs manually via drag and drop or use the automated route optimization tool
- Print out job details and routes for technicians

## Onboarding

- Let us help you import all of your data into ServiceCore
- No double data entry; everything transfers quickly and seamlessly
- Our team will assist you with any questions or training

## Software Integrations

- Automatically sync your data with QuickBooks
- Integrated credit card processing to get paid quickly and securely
- Data security and backup is fully secured and configured through Amazon Web Services

## Accounting and Invoicing

- We support all known billing methods for recurring invoicing
- Invoices can be created from work orders with a single click
